

RMHWireless

Product Details

This battery-powered Bluetooth mortise lock features keyless entry via Bluetooth/Wi-Fi communication and is controlled by our RMHWireless proprietary app for ease and convenience. As with all Rocky Mountain Hardware, this offering is customizable to complement any aesthetic. Any choice of hardware collection is available, all with no exposed electronics.

RMHWireless (RMHW)

Notes

- All technology components are hidden inside the mortise pocket.
- Fully customizable - select any hardware collection, handle and finish.
- Does not require any wiring through the door frame. Battery powered for easy installation. (Hardwiring is optional.)
- Lock/unlock the door and grant keyless entry via RMHWireless app.
- Compatible with many common smart home systems, such as Google Home, Alexa and Nest.
- Compatible with both iOS and Android platforms.
- Up to 50 users allowed per lock - each with optional and customizable accessibility permissions.
- Each lock activated after creating a RMHWireless account, requiring a one-time setup fee and an annual subscription fee. See Combinations and Pricing for details
- Offers a standard key override should Bluetooth lock fail.
- Standard backsets available - 2-1/2" and 2-3/4". No narrow backsets offered at this time. Call RMH for additional options.
- Minimum Door Thickness of 1-3/4" required.
