EDPS | 21

Notes:
1. This bore specification is applicable for 2 1/2" or 2 3/4" backset mortise locks.
2. Standard location of mortise lock is determined by placing the lever or knob 36" above finish floor. However, this may be adjusted for special applications.
3. 1 3/4" minimum door thickness.
4. This bore specification will not work with E10101.
5. It may be necessary to trim the top escutcheon mounting screws for 2 1/4" and less door thickness that fall within the edge bore, to avoid interference with internal components.
