Notes:

1. Standard location of mortise lock is determined by placing the lever or knob 36" above finish floor. However, this may be adjusted for special applications.

2. This bore specification is applicable for 2 1/2", 2 3/4", 3 3/4", 5" or 6" backset mortise locks.
Notes:

1. This dimension is 1/2 of door thickness, e.g., 1 3/4" divided by 2 = 7/8". This dimension will have to be adjusted for different door thicknesses and unusual jamb or door conditions.
