SPOTLIGHT ON DESIGN

SAN DIEGO HARDWARE

DESIGN SOURCE

For over 126 years, San Diego Hardware has been the region's foremost purveyor of decorative hardware. Proudly family owned since 1892, the business moved from its original downtown location to its current showroom in Kearny Mesa in 2006. Long a favorite among interior designers, contractors,

and builders, the spacious 15,000-square-foot store features a breathtaking array of more than 10,000 products. Among them are doorknobs, pulls, locks, hinges, house numbers, and kitchen and bath hardware products—including many eco-friendly, antimicrobial, and American-made items.
