ROCKY MOUNTAIN HARDWARE INTRODUCES THE MACK COLLECTION

PRECISION ARCHITECTURE MAKES A BOLD
STATEMENT – BRONZE DARK LUSTRE ADDS
THE FINISHING TOUCH

Hailey, ID – Rocky Mountain Hardware introduces the Mack Collection, a skillful exploration of dimension and light in solid bronze. A full range of door hardware and home accessories features versatile silhouettes with angular shifting planes that emphasize the contrast between reflection and shadow. Pared down to essential forms, Mack's geometric volumes and sleek lines harmonize with the rich and varied natural beauty of bronze patina to create a timeless modern aesthetic.

Bronze Dark Lustre is the newest addition to RMH's exquisite standard finish options. A subtle sheen gives depth and complexity to the rich Bronze Dark surface, creating the perfect canvas for the linear elegance of the new Mack Collection while offering exciting new design possibilities for RMH classics. Now there are ten ways to customize the look and show off the hand-crafted quality of Rocky Mountain Hardware.

ABOUT ROCKY MOUNTAIN HARDWARE

Rocky Mountain Hardware products contain 90% recycled materials – 90% of which is post-consumer – as certified by Scientific Certification Systems (SCS.) As a result, the use of RMH products can contribute towards accruing up to two LEED® points from the United States Green Building Council for a registered project.
