FRANK DE BIASI

"Sourcing interesting materials is key," says the Morocco-based de Biasi. For a light-filled Miami home (above), he paired Portuguese marble on the walls and countertops with cabinetry crafted from Makassar ebony and unlacquered brass hardware. Then he added a spiky metal Mattia Bonetti cabinet (davidgillgallery.com) to make a statement. "There should always be some kind of wow factor," he says. frankdebiasi.com
